

MEET OUR STUDENTS!

Name: Marina Mendes (Aracaju, Brazil)
Program: Bachelor's of Business Management
Major: Entrepreneurship
Future Career: Business Owner

Q) Why did you choose to get your degree from FDU-Vancouver?

A) I wanted to study at FDU-Vancouver because it is an American university in Canada. The university combines two countries and it gives me the opportunity to work in Canada or the US when I graduate. Best of all, the US degree is very well recognized across the world. When I return to Brazil, I have the advantage of having a US degree.

Q) What is the best part of living in Vancouver, Canada?

A) The advantages of living in Canada are that it is a peaceful and organized country. Before I came here, I only heard positive things about Canada, such as it was rated having the highest quality of life for its citizens. The international environment here is excellent and you meet people from all around the world. Vancouver is a very beautiful place and the transportation system is great.

Q) What is your favorite subject at FDU-Vancouver? Why?

Introduction to Business is my favorite class. I like it because I learn a lot about the principle of business and how it applies directly to what I want to do in the future. The class has helped me develop my business ideas, so that I can be successful at running my own business when I graduate.

Q) What is your favorite part of FDU outside of the classroom?

A) The friends, teachers, events and staff are all wonderful. I have made lots of friends at FDU-Vancouver. The staff is very friendly and helpful. I found lots of support when I arrived here from Brazil. The professors at FDU give you lots of attention because of the small class size. The professors are very patient and accommodating, they understand your situation as an international student. I also enjoy the fact that the university is very involved in community events and fundraisers – we really help people that are in need.
